Italian Excellence Worldwide

SAMMI s.r.l.
Via Tuderte, 388
05035 Narni Scalo (TR) - ITALY
info@sammi.it
www.sammi.it

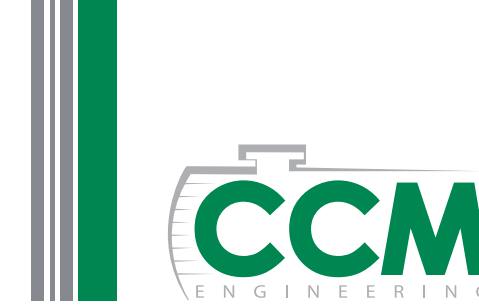

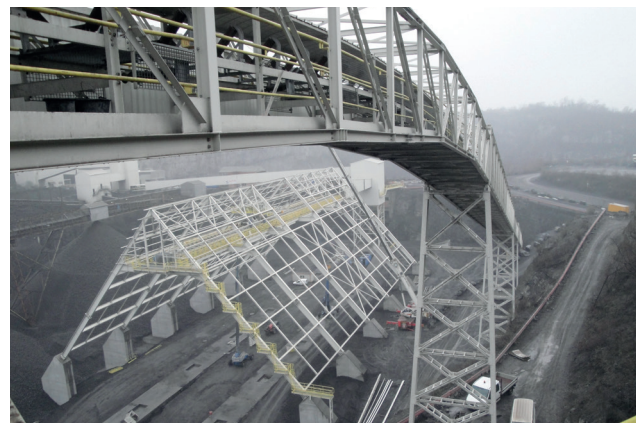

SAMMI s.r.l., located in Narni Scalo (Italy) approximately 80 km north of Rome and 200 km south of Florence, was founded in 1976. After its initial experience in mechanical assemblies and plant maintenance, SAMMI perfected and expanded its production sectors, becoming involved in structural construction and triggering a growth process not only in terms of the size of the Company but also in terms of managerial and technical skills. With over 40 years of experience, Sammi has always been associated with vast experience and flexibility in customized solutions and with undisputed expertise in technologies gained in part through close cooperation with its industrial partner.

Specialized in design and manufacturing of machines for bulk materials handling, SAMMI provides complete systems and solutions in different fields:

- Mine and Quarry plants
- Cement factories
- Off-shore plants
- Harbour plants
- Glassware factories
- Steelworks/Aluminium Smelters
- Tunnel plants
- Agro food industries
- Chemical/Fertilizers
- Waste and power plants

At the base of the continuous and constant evolution of SAMMI, there is the Company philosophy "no barriers exist, only new challenges". This motto led Sammi from Italy to the intercontinental market, passing through these dates, the most significant of the Company's history:

- 1976** foundation
- 1993** transformation in Joint Stock Company
- 1999** acquisition of Molliconi Metmo s.p.a.
- 2016** acquisition of the majority of CCM Engineering s.r.l.
- 2017** acquisition of the majority of Shi.E.L.D. Services s.r.l.

CCM Engineering s.r.l. is a renowned Italian manufacturer of Shell & Tube Heat Exchanger and Pressure Vessel for the Oil & Gas, Petrochemical, Power and Energy, Water Treatment and industrial business sectors. Since more than 60 years CCM has been designing, manufacturing and testing equipments for the major EPC and final End User all around the world, collecting unique experience in project management, engineering solution & standard, production process, welding technique and quality control.

Product lines include:

- Shell & Tube Heat Exchanger
- Pressure Vessel
- Columns
- Reactors
- Skid and structures
- Filter & cyclone

What Makes CCM Engineering Special?

- In almost 60 years of experience we assure you an excellent quality.

- Technology and innovation: our group designs with advanced technologies to ensure high standards.

- Development goes through our production plants: our technology comes from our knowledge that refers to the design of manufactures and schedules their implementation, operation, adjustment, maintenance and monitoring.

58 Years of Experience

2200 Equipment Supplied

790 Projects completed

35 Countries Worldwide

Shi.E.L.D. Services s.r.l.
